Pinwheel Craft

Step 1: Cut out design (follow the outside edge only)

Step 2: With a pushpin, poke a hole on each of the 5 dots (including the center)

Step 3: Color/put designs on both sides of the "wheel"

Step 4: Cut on straight black lines toward the center of the "wheel" being careful not to cut all the way to the center

Step 5: Fold all the outside dots into the center dot and secure with the pushpin

Step 6: Poke the pushpin into the eraser of a pencil, being careful not to poke it all the way through

Step 7: Adjust your "wheel" until it spins nicely and enjoy!
